9/25/69 This transcript is undated. It was while I was in N.O. I had been with Sciambra in Aaron's office when he got a phone call from Baton Rouge DA Aargent Pitcher about this pair and had not known what to say. I believe this call was to me at the Fontainbleau, afterwards, that same day. Me and Brownlee had been working for the labor-management committee, having told me of it, I now believe, the previous weekend. Morris had been supposed to see me the previous weekend but couldn't because of car trouble that had to be rectified so they' have transportation to B.R. I also had a report from a Baton Rouge reporter that Partin had phoned him to say he was putting up Brownlee's bail and would delay it until the paper got a photographer there if they'd like. I gave Louis a memo on this at that time.
